The Patent invalidation litigations are still in progress. Everlight safeguards and protects the interests of its customers

**Shulin District, New Taipei City, Taiwan, August 27, 2019-** In response to Seoul Semiconductor (SSC) press release on August 27 related to German District Court' s judgment, Everlight regrets this but respects the judgment rendered by the Court. However, the patent lawsuit is under appeal procedure. Everlight stresses that the judgment was confined to Mouser and a specific 2835 product. It would have no impact upon other customers and other products at all.

As a counterattack against SSC, Everlight has launched patent invalidation litigations in Germany and the litigations are currently proceeding. Everlight firmly believes that the patent invalidation litigations are well grounded and SSC patents will eventually be ruled invalid.

EVERLIGHT respects intellectual property rights and will devote to the protection of customers' and shareholders' benefits and rights.

## About EVERLIGHT Electronics Co. Ltd.
